PROMINENT FARMER
EXPIRES SUDDENLY

J. W. Wright, aged 78 years, died at his home at Ivanhoe Monday at noon after a brief illness with acute indigestion. He was stricken while about his premises in the morning and died within an hour. Interment was at Fellowship church at 11 a. m. Wednesday, the services being conducted by Rev. W. D. Horton, of the Guyton Baptist church, and Rev. A. A. Waite of the Methodist church. Deceased is survived by his widow, Mrs. Emma Williams Wright; four daughters, Miss Margaret Wright, Mrs. L. G. Lanier of Pembroke, Mrs. J. F. Stewart and Mrs. George Wilcox of Savannah; one son, J. C. Wright of Savannah; a brother, J. B. Wright of Ivanhoe, and a number of grandchildren.

Mr. Wright was one of Bulloch county's leading citizens. Not only was he a successful farmer, but was a leader in public affairs. He had represented his county as a member of the Georgia legislature and had been for many years identified with other phases of activity. He was formerly a member of the county board of education, was a member of the board of jury reviewers, and for years held the office of justice of the peace for the 47th district. Despite his age, he remained vigorous and was a frequent visitor to the county seat.

SOLDIERS OF THE SEA
ATTRACT LOCAL YOUTH

While looking forward to service on land or sea with the U. S. marines, Roy Brantley, of Statesboro, will soon complete his preliminary training with the soldiers of the sea at Parris Island, S. C., according to a recent report of enlistments at that training station.

Roy is 21 years old, was born in Statesboro, and is a son of Mrs. Jerry M. Brantley, rural route 3. He joined the marine corps at Savannah on the first of December and was sent to Parris Island, which is near by training. Within a few weeks he will probably leave for some foreign station, go aboard a naval vessel, or be assigned to one of the many interesting duties that fall to the lot of the marines.

Brantley enlisted for four years, but during this period free educational courses, taught by the marine corps institute, are available to all members of the corps. Many young men take advantage of these courses and complete their enlistments, especially equipped to take up some trade, art or profession.

TALMADGE PLACES COTTON
CROP AT 961,241 BALES

Atlanta, Ga., Dec. 17.—The 1928 cotton crop in Georgia was total 961,241 bales according to figures compiled by the Georgia Department of Agriculture, Eugene Talmadge, commissioner, announces.

The final report on the Georgia cotton crop for this year compiled by the Georgia Department of Agriculture was 961,241 bales.

"The final federal report for Georgia was 1,020,000 bales.

"According to the records of the Georgia Department of Agriculture, the federal bureau has overestimated the Georgia crop 58,759 bales.

"The largest estimate of the federal department on the Georgia cotton crop was released October 8, the peak of marketing. This estimate for Georgia was 1,060,000 bales. If the federal bureau had overestimated the crop in other states as has been done in Georgia, Senator Heflin, of Alabama, is very conservative in his statement that the crop for the entire cotton belt has been overestimated 500,000 bales."

INQUISITIVE FARMERS
PLAY SCIENTIFIC ROLE

SECRETS OF SOIL ARE SOUGHT BY MANY GEORGIA FARMERS; SURVEY REVEALS.

That many farmers have a scientific or inquisitorial turn of mind is indicated by the results of a survey of over 48,000 farmers in 34 States who were personally and uniformly interviewed by representatives of the National Fertilizer Association.

The survey was made during the past summer to obtain a comprehensive picture of the "what, where, when, how and why" of the use of fertilizer in the principal consuming areas of the country.

Of the 48,055 farmers who replied to the question, "Have you ever made any comparisons with or without fertilizer?" 4,782 were in Georgia. A compilation of all the answers of Georgia farmers shows that 32.8 per cent have made tests on their farms to determine the effect of fertilizer applications as compared with no fertilizer. In addition, 31 per cent said they had made tests of different kinds and amounts of fertilizer, thus indicating that many farmers make use of the best research method known to scientists—experimentation.

Of the 48,055 farmers in 34 States who replied to the above question, 37.1 per cent, or nearly four out of ten, said they had tried tests with and without fertilizers, and 33.4 per cent, or about three and one-half out of ten, said they had tested different kinds and amounts.

Commenting on the replies of farmers to this question, Charles Brand, executive secretary and treasurer of the National Fertilizer Association, Washington, D. C., points out that fertilizer manufacturers and agricultural extension services generally encourage farmers to make tests. He states that manufacturers know from experience that the farmer who tests fertilizer on his own farm learns more accurately the analysis of nitrogen, phosphoric acid and potash in complete fertilizer that his soil need to produce the most profitable yields. Mr. Brand says that when a farmer makes a test, usually the increase in yield, the hastening of maturity or the improvement of the quality so impresses him that he afterwards uses more and better fertilizer on his farm.

Judging from the survey, Kansas farmers are most inquisitive, as to how their soils respond to fertilizer. 78 per cent of those interviewed reported tests to compare the results with and without fertilizer. However, the number of interviews in Kansas was comparatively small, although the high percentage is believed by Mr. Brand to indicate a desire by Kansas farmers to utilize fertilizers in their production operations. Michigan and Texas showed 60 per cent; Vermont 54.7 and Mississippi 52.

In South Carolina, where farmers have used fertilizer many years, the percentage was 71.3, the lowest of any state. Others in which low percentages were shown are: Rhode Island, 12.1; Oklahoma, 12.5; Iowa, 18, and Florida, 20.8.

Mrs. Caroline Willis of Duluth, Minn., testified that the only thing her husband ever gave her was a black eye.

POULTRY INDUSTRY IN
BILLION DOLLAR CLASS

The farm poultry industry now ranks in the billion dollar class, and is the sixth agricultural commodity in value in the United States, according to Harry R. Lewis, president of the National Poultry Council. In line with the increasing importance of poultry and eggs as a source of income to the farmers of the nation, Mr. Lewis and several leading poultry authorities, recently called upon General Lord, director of the Federal Budget Bureau, to ask for larger appropriations in 1930 to solve new problems arising in the industry.

This is an indication that chickens on the farm cannot any longer be treated as a side issue, but should be considered one of the principal "crops" and the one most readily convertible into "ready cash." Last year approximately 11,181,000,000 eggs were produced in the United States, and the poultry industry is expected to produce 12,000,000,000 eggs this year.

It is on this basis that the National Poultry Council appealed to Uncle Sam for more funds to secure improved methods of poultry keeping which may assist the farmer in obtaining still larger profits from his poultry flock.

The first step to greater profits from farm poultry is in increased egg production, according to poultry authorities and farm leaders. Hens must lay from 140 to 170 eggs per year to return a good profit to their owners. The principal trouble lies in the fact that the average farm hen now lays only 70 eggs a year, which is not enough for the farmer to realize an adequate profit in return for the labor and feed he expends.

In a drive to assist in bettering the quality of stock on American farms leading hatcheries of the country recently united under the slogan, "Hatchery Chicks for Greater Profits," pledged to produce profit-making stock at fair prices. Because the great growth in the hatchery business in recent years has enabled the poultry industry to attain its present size, leaders in this field are looking to hatcheries as the most logical source of better farm stock for the future.

CHAMBER OF COMMERCE
CALLS OFF SCOUT NIGHT

The Chamber of Commerce has cancelled the plan for a joint meeting of fathers and sons and Boy Scouts, scheduled for next Monday evening. The prevalence of a considerable amount of sickness among the Boy Scouts and among the ladies of the serving committee has seemed to make it advisable to wait till a later date for the meeting.

Mrs. Laura Fleming of Chicago, testified in her suit for divorce that her husband had never been known to tell the truth.

AGITATION FAVORS THE
BUILDING OF SIDEWALKS

The recent laying of a small quantity of sidewalk in Statesboro has started agitation in favor of a continuance of the work. Something like two hundred feet of new walk on East Main street, beginning at the Times office and running eastward, was the first work, and adds much to the city. On Zetterover avenue F. W. Darby has also built a sidewalk and considerable other paving about his new residence now just nearing completion. A number of other property owners have expressed a desire to join in the improvement, and it is regarded as altogether probable that the city officials would be willing to take part in a rather extensive paving campaign if sufficient interest is manifested.

OAKLAND FIELD FORCE
IS GREATLY EXPANDED

Expansion of the field organization of the Oakland Motor Car Company to meet the anticipated increase in business in 1929 is announced by W. R. Tracy, vice-president in charge of sales.

A closer tie-up between the manufacturer and the public is assured by the expansion, which included the creation of a new district office, the transfer of another, and changes in the field personnel of additional districts.

This announcement follows directly on the heels of a statement issued by the Oakland factory declaring that shortly a "Pontiac Six" new in practically everything but name, would appear on the market, and at a time when the new Oakland All-American Six is commanding greater public interest than any previous model in the history of the line.

In addition to expansion in the sales department, production facilities also are being stepped up so that next year the Oakland-Pontiac plant will have a capacity in excess of 300,000 cars, as against the estimated output this year of 285,000.

Field changes included the establishment of a new district office on December 15 at Los Angeles, the 25th to be established in the United States, which exercises jurisdiction over Southern California, Arizona and parts of Nevada. Annual business flowing through this office will range from nine to twelve millions of dollars.

H. P. Grove, formerly Oakland district manager at San Francisco and previously at Pittsburgh and Butte, heads the new Los Angeles district office. Under his direction are fifteen field officials and a clerical staff.

Effective the same date, the district office headquarters formerly located at Butte was transferred to Spokane; with the office personnel remaining intact except the addition of several new field representatives.

Virtually simultaneous with these changes, W. H. Loudon, formerly district manager at Memphis was brought into the home office at Pontiac, Mich. W. R. Cartwright, formerly assistant manager at Buffalo, was succeeded at Buffalo by E. L. Morris, formerly assistant manager at New York City. P. F. Murray, a thoroughly experienced automotive man, although a newcomer in the Oakland organization, succeeded Morris at New York City.

With this rearrangement of the field personnel, Oakland officials are going into 1929 confident of surpassing by a comfortable margin any previous year in the history of the company.

A spaniel taken away by its new owner returned 50 miles to its old home in Alton, Ill., two days later.

WORK ON MOORE ROAD
IS NOW IN PROGRESS

The county road forces have for several weeks been at work on the improvement of the Moore road leading northwest from Statesboro by way of Portal. The road is being straightened between Statesboro and Mill creek and put in shape for the paving which will eventually come.

Very slight changes are being made in the right of way, though some of the sharper curves are being taken out and the roadbed graded.

As a further step toward putting route 26 in shape for formal acceptance for grading by the State highway department, there has been a straightening out of the sharp curve near the end of the road. The property owners of that community have given a right of way for running the road straight through the recent subdivision which will eliminate the dangerous curve at the Baptist church.

There is no sort of assurance as to the definite date when the paving on that route, though there is a feeling of certainty that route 26 will be the first through highway to be paved, and that this will be done within the next year or two.

J. L. Cuper of Clarksville, Tex., claims to have read every issue of a Dallas newspaper since its establishment, more than 50 years ago.

THE PRESBYTERIAN CHURCH

Since next Sabbath is the fifth of the month and the last of the year, the morning services will be at Metter and the evening in Statesboro. The Christmas season was one of joy and gladness in the manse, and it is hoped that all our sick ones may soon be restored to health and their accustomed places of usefulness and service.

Next Sunday at 10:15 the regular Sunday school exercises will be held with W. E. McDougald, superintendent. In the evening at 7:30 the text will be "He went out not knowing whether he would." Bring your voice and praying heart.

A. E. SPENCER, Pastor.

AT BETHLEHEM CHURCH
Elder Henry Swain, of Macon, will preach at Bethlehem church on next Tuesday, December 1st, at 11 a. m. The public is invited.

CAUGHT IN BEDROOM
NEGRO GIVES BATTLE

JIM GERMAN OVERPOWERED BY McDOUGALD BOTHERS AFTER DESPERATE FIGHT.

Jim German, a young negro who has twice done service on the Bulloch county chain gang, took the first steps in that direction for a third visit last Saturday night when he entered the bedroom occupied by Bernard and Douglas McDougald on Grady street. Overpowered by a turn over to the officers and landed in jail.

Bernard McDougald, the eldest of the brothers, was awakened about 1 o'clock Sunday morning by a slight noise in his room. Listening intently he observed the figure of a man pressed close to the wall by his bed.

Nudging his brother Douglas, in the same bed, Bernard planned a course of action. While he was planning the negro was apparently doing the same thing. When Bernard thrust his hand out the negro took hold of his grinders. Bernard called for help. Douglas was aroused and took a firm hold of the negro's foot and gave it a twist. This tended to divert the intruder's mind only temporarily. Accepting the opportunity this offered, Bernard clapped the negro's throat and sought to choke him into submission. He thought he had accomplished this and released his hold only to have the negro come back stronger than ever.

A sister came into the bedroom with a shotgun. Grabbing this Bernard hit the negro on the head at close range. The gun shattered into splinters, but the negro never staggered. In the meantime neighbors had been called. L. M. Mikell and W. J. Rackley came from across the street and gave aid. This overpowered the negro was held until the police arrived. At the front gate the negro made an attack upon the officer and was knocked down three times without successfully bringing him into submission. Still grappling with him, the officer pulled his pistol and fired at close range. The ball passed through the negro's hand and he submitted. In the meantime Deputy Sheriff Tillman had arrived. The two officers brought the negro, a badly blooded man, to the county jail.

After the strenuous struggle, Bernard McDougald called a doctor and had his fingers dressed. They were both badly chewed up, but will probably be saved.

AARON SCHOOL NEWS

Schol closed today with a very high attendance record for the months preceding Christmas.

We are informed that the board is to meet and steps are going to be taken for a new school building. For the last few months we have been expecting to see signs of a new building—and now you know that the paving which will eventually come.

The Aaron girls' basketball team gave us a rather pleasant surprise this week by defeating Rosemary 22 to 9 and defeating Denmark 22 to 6. Before last Aaron girls lost to Denmark 7 to 2. We believe that by the time of the tournament we will have a girls' team that will be hard to beat.

The boys' basketball team defeated the undefeated Rosemary team 22 to 9 and also defeated Denmark 22 to 6. Harold Rucker, the Aaron "ace" really played a game. Yet Fields and Mills are dangerous men when near the goal. B. Rucker and Cowart often win praise from the side line.

Aaron has scored 234 points, while our opponents have scored only 71 points.

Last week an error was made in our report. Aaron is playing only bona fide students on its teams.

DEALERS ARE SHOWN
NEW PONTIAC SIXES

Direct factory contact with the 5,000 members in the domestic dealer organization of the Oakland Motor Car Company in a period of less than two weeks, in preparation for the public showing of the new 1929 Pontiac Six, was under way this week with the holding of the first of a series of nation-wide meetings by home offices.

Thirty key points stretching from Boston to Los Angeles, and from Seattle to Jacksonville, are being visited by three groups of executives from the factory at Pontiac, Michigan. Talking motion pictures, lantern slides and elaborate theatrical equipment is being pressed into service to get across to the dealer organization the story of the new Pontiac which shortly will appear on the market.

Dealer meetings were held on December 10th at Buffalo, Pittsburgh and Denver, while other meetings are being staged almost daily until the new Pontiac Six is on the market. Visited by three groups of executives from the factory at Pontiac, Michigan. Talking motion pictures, lantern slides and elaborate theatrical equipment is being pressed into service to get across to the dealer organization the story of the new Pontiac which shortly will appear on the market.

Heading the first group which will swing down the Atlantic seaboard, are W. B. Sawyer, eastern sales manager; W. E. Fellows, advertising manager, and Hugh Higginbottom, distribution manager. E. M. Lubek, western sales manager, and W. McChamberlain, manager of sales development, will cover the central West; while the Pacific coast meetings will be conducted by R. B. Hatchelder, assistant to W. R. Tracy, vice-president in charge of sales, and L. M. Dreves, manager of the Pacific coast region.

Regional and district office officials also will assist in conducting the meetings and a service expert from the home office will explain to every dealer group the many new performance features incorporated in the Pontiac Six for 1929.

Meetings will be staged in centrally located auditoriums in every town visited, and every meeting will be attended by several hundred dealers, associate dealers, and sales managers. The program will be of several hours' duration and will include Movietone talking pictures presenting the messages of A. R. Glancy, president of the Oakland company, and Mr. Tracy, to the dealer groups.

Speakers will present to the audience the entire picture of the new Pontiac Six and the outline of the program for the coming year, including the extensive advertising budget for 1929 and service information on the many new points of engine construction.

They also will show the dealers how the new line of bodies developed by Fisher body craftsmen and Oakland engineers reveal pleasing points of variance from conventional design, stressing particularly the radical new hood louvre grouping and departure from accepted trends in the development of window design, in belt line, body moulding and pillar line effects.

An enthusiastic dealer group greeted the presentation of the new car at the points already visited, according to word received at the factory, the car fully justifying the advance claim that it offers "big car features within the price range of the small six."

NERVES

Went to Pieces

"I suffered a long time, before
I tried Cardui," says Mrs. Lillie
Pruitt, 130 "K" St., Anderson, S.C.

"I was badly run-down in
health. My nerves 'went
to pieces,' and I had to go to bed."

"I got so bad off, I could not
bear to have anybody walk
across the floor of my room.
The least little thing upset me."

Sometimes I became hysterical.
I had bad pains in my back and
sides, and my head and limbs
would take spells of shivering,
which almost set me wild."

"One day I saw where a woman,
who had a trouble like my
own, had been relieved by Cardui.
I decided at once to try it. It be-
gan to help me from the very
first. I took Cardui regularly,
for several months, and my improve-
ment was so remarkable my family
and friends were delighted."

COUNTY SCHOOL NEWS

Children, let us not forget our lessons
entirely during our time off
from class room duties. Take a little
time and get up those lessons
that are assigned for the first day of
school after the Christmas holidays.

Better be safe than sorry. Teachers
may be hard on you if you do not
have the lessons well prepared for
the first day of school, after a long
vacation.

The state adoption of school books
for the next five years did not make
many changes in the old adoption
which we have had for the past five
years. The few changes will not be
come effective until we open for the
term of 1929-30, next September.

There will be many new books to be
purchased in the lower grades with-
in a few weeks. As the children
complete one book, a new one is re-
quired to complete the term's re-
quirement.

Our general record for the fall
term was not as good as we had ex-
pected. The attendance in some of
the schools was not up to normal.
Just a few schools were able to make
the usual good showing. We hope
that our patrons will make it possi-
ble by sending all the children every
day during the spring term. We be-
lieve that the teachers could bring
up the average by personal visits and
by urging better attendance by per-
sonal contact. Those schools whose
teachers know the parents and come
in contact with them, are the schools
that make the best records.

No school district in the county
has greater pride in their school
than has the Middle Ground school
district. The new brick building is
almost in readiness for the children
to move into. This is one of our
very best school buildings. Built of
brick and the plastering on steel
lathing, makes it almost fireproof. A
community may well take pride in
such an accomplishment. What the
citizens of Middle Ground school
district propose, they do. Citizens
of the county are urged to visit this
new and modern school plant for the
purpose of inspection. You will be
amazed to see this school in operation.
It is a dandy.

Trustees should make close in-
spections of their schools' monthly
attendance. To keep in your em-
ployment more teachers than your
school needs and for which you make
an average, will make your money
pay all too heavy for your local
tax funds to meet. One hundred in
monthly attendance enables your
board to pay for four teachers and
one teacher more for every additional
monthly average of thirty in at-
tendance. If you have six teachers
with an average of less than 100
monthly, you will have one teacher's
salary to pay out of your local tax
funds. One hundred and ninety
average would give you seven teachers
and so on. Your teachers know
whether the average is being made
as is required by the county board
or not. You, too, should know.

All teachers' salaries of like grade
and similar experience are not the
same. In some local tax districts,
the trustees are able to pay better
salaries than in others. Your county
board does not have the right to fix
salaries in local tax districts. That
is a matter between teachers and
local school trustees. We wonder
when teachers will understand this.
We need to ask for a raise in your
salary if you are teaching in a local
tax district or elsewhere as for that
matter. The budget was made and
no variations from that will be made
during the school year. Budgets
were made as nearly equal as possi-
ble when the classification of the
schools are taken into consideration
as a basis on which to make the an-
nual budgets. No favoritism is
shown this or that school, purposely.
Some of our teachers need experi-
ence in some other counties where
pay is low and slow and then they
would better appreciate our efforts
to pay good salaries and pay them
promptly.

During Christmas week, our office
will be closed as we will be visiting
relatives and friends in Florida.
Early in January we expect to be
back on the job. Heretofore, we
have kept the office open during most
of the Christmas holidays for the
convenience of those who wished to
call.

Following is the program of the
Bulloch County Teachers' Association,
Saturday, January 5, 1929:

20 YEARS AGO TODAY

(From Bulloch Times, Dec. 30, 1908)

Custis and Ed. Lindsey, of Klam-
mee, Fla., visited their father, J. A.
Lindsey.

B. W. Strickland announced the
opening of the Brunnen school on
next Monday.

B. R. Olliff announced the open-
ing of school next Monday at Ewell
Park Academy.

J. B. Groover was fined \$50 in
major's court upon conviction of
selling near beer.

Rev. J. A. Scarborough was called to
the pastorate of the Baptist church
at Magnolia, Ark.

John Brinson, of Brooklet, pre-
sented the Times with an orange
grown on his place there.

S. T. Chance was winding up his
furniture business preparatory to
moving to Gainesville, Ga.

D. Barnes sold his grocery busi-
ness to Bartow Parish with the in-
tention of going to Savannah to en-
gage in business.

Brooklet Masonic Lodge installed
officers: T. R. Bryan, W. M.; S. D.
Alderman, S. W.; W. C. Cromley,
J. W.; J. W. Robertson, secretary;

J. R. Hall, Tyler.

Announcement was made that
Miss Polly Wood (now Mrs. Morgan
Moore) had won a \$400 Mathushek
piano in a circulation contest con-
ducted by the Atlanta Journal.

Olliff Masonic Lodge, located at
Register, installed officers: B. R.
Olliff, W. M.; R. L. Green, S. W.;
J. H. St. Clair, J. W.; Frank I. Wil-
liams, treasurer; D. O. Beasley, sec-
retary; W. S. Anderson, Tyler.

Christmas had passed. The ordi-
nance against fireworks was suspend-
ed. W. H. Blitch, H. L. Griner and
Walter Knight were reported as hav-
ing been under the care of physi-
cians for injuries to their eyes re-
ceived in fireworks battles on the
streets.

It was stated that the United
States exports of pickles and relishes
to Canada, the most important mar-
ket for these American products
have shown a gradual increase dur-
ing the past four years.

Cuba is said to rank second as a
purchaser of pickles from the United
States during the past year, but was
only seventh in importance as a mar-
ket for ketchup and other tomato
sauces.

Miss Elsie Schuman of Chicago
had James Durbin arrested when he
taunted her for having "skinny legs."

January 5th, at 11 o'clock a. m., at
court house auditorium.

Approximately seven-eighths of
the county has made arrangements
for the needs of the children so far
as schooling of them adequately is
concerned. The other eighth will
soon make effort to be on an even
basis with the balance of the county.
After the present school year, each
school district will be required to
bear the full expense of all high
school students' needs. Should a
school district not be able to have
high school subjects taught, the
county board will not be permitted
to pay transportation for these chil-
dren when sent out of their home
district. No reason why every dis-
trict should not fare exactly alike in
the responsibility of the high school
students and others as for that mat-
ter. Those who have high school ad-
vantages, support them by local tax-
ation and otherwise. Those who do
not have these advantages, refuse
to make possible the means by con-
solidating and local tax support. This
one-eighth could have what the other
seven-eighths of the county has by
doing as the others have done. That
is a simple matter and easy for any
person to understand. If you do not
want better advantages, that is left
for you to decide.

The county board of education
will not meet Tuesday, January 1st,
but will meet on Friday, January 4th.
All reports for approval by the board
should reach this office not later
than January 2nd. That is as late
as we can include items for approval.
Those who may wish to meet the
board will take notice of this change
in the meeting from the first to the
fourth.

E. R. OLLIFF, Supt.

GRIMES—EVANS

Mr. and Mrs. Frank Norwood Grimes announce the marriage of their daughter Virginia to Mr. Thos. Jefferson Evans, Jr., of Sylvania, on December 24th. The young couple will be at home to their friends in Sylvania after January 10th.

T. E. L. SOCIAL

On Friday afternoon the T. E. L. class of the Baptist church gave their Christmas party at the home of Mrs. W. H. Simmons on North Main St. Each member of the class was asked to bring a small gift to go on the tree. After a number of lively games the gifts were distributed from the tree by Santa Claus. Ambrosia was served with pound cake and hot coffee.

B. Y. P. U. IN CHARGE

The B. Y. P. U. department will have charge of the night service at the First Baptist church next Sunday night, December 30th. They will present a Christmas play entitled "The Treasure Chest." About seventy-five characters are in the play, and it is scheduled to be a most interesting and entertaining affair. The public is cordially invited to attend the service.

BRIDGE FOR VISITOR

Mrs. Frank Simmons and Mrs. J. P. Foy were joint hostesses on last Thursday afternoon with three tables of bridge honoring Mrs. Grady Proctor, of Birmingham, Ala., the attractive guest of Mrs. Waldo Floyd. Bath salts was their gift to the honor guest. A maineure set was given for high score and was won by Miss Virginia Grimes. After a delicious sweet course was served the favors were given from a Christmas tree.
